

DISPLAYS

& cake stands

ELEGANCE FIRST

Elegance above all, but without losing sight of the crucial aspects that lead to the creation of a high-quality product, such as CRYLUX® plexiglass, a semi-finished material that greatly facilitates the manufacturing process due to its perfect flatness. Additionally, it is an exceptionally shiny and stable material, an excellent alternative to glass, allowing for various types of processing, including laser engraving, digital printing, hot stamping, screen printing, and thermoforming.

To complete the range, we offer a wide assortment of cake stands, both in plexiglass and plastic, featuring modern or classic designs, to provide maximum choice and meet all your needs.

L'eleganza prima di tutto, ma senza perdere di vista gli aspetti importanti che conducono alla realizzazione di un prodotto dalla grande qualità, come il plexiglass CRYLUX®, un semilavorato che grazie alla sua perfetta planarità, facilita enormemente la lavorazione. Si tratta inoltre di un materiale estremamente brillante e stabile, ottimo sostituto del vetro, che consente diversi tipi di lavorazione, come incisioni laser, stampa digitale, a caldo, serigrafica e termoformatura.

A completare la gamma, un vasto assortimento di alzate per torte, sia in plexiglass che in plastica, dalle linee moderne o classiche, per offrire il massimo della scelta e soddisfare tutte le esigenze.
