HONEY THEME

Gli stampi della linea dedicata al miele ricreano nei dettagli la texture delle celle esagonali che compongono l'alveare, con tutte le naturali imperfezioni date dal laborioso lavoro delle api nel produrre il loro prezioso nettare.

The honey dedicated range of moulds recreate with accuracy the texture of the hexagonal cells which assemble the beehive, including all the natural imperfections created by the laborious work of the bees in producing the precious nectar.

Les moules de la gamme dédiée au miel recréent dans les moindres détails la texture des cellules hexagonales dont est composée la ruche.
